Once assembled these fans can be used to aid non-verbal communication. They are intended for use by an adult as a way of asking a question (*“Have you washed your hands?”*) or making a statement (*“Wash your hands please.”*).

N.B. When introducing these fans to the children it may be useful to reinforce the link in their minds by showing real life actions to correspond with the pictures. For example, ‘Sit down’ – demonstrate with someone sitting down.

To create fan, cut and laminate each picture. Then join through the highlighted dot using a split pin or a treasury tag.
