This mat can be used to aid non-verbal communication. It is intended for use by an adult or a child as a way of asking a question (*“Are you hungry?”*) or making a statement (*“I am hungry.”*).

N.B. In teaching a child how to use this mat, it would be beneficial to initially show them real life objects that correspond to the pictures. For example, pointing to the ‘Thirsty’ picture while pointing at their drink cup to reinforce the link in their minds.
