

Visual Timetable Cards (A7 size)

Individual/Home

These cards can be used to build an individual timetable for a non-verbal child or one that may benefit from extra structure, advanced warning, or reassurance.

Encouraging the child to be a part of the timetable creation can be beneficial.

The cards are designed to be cut & laminated and then used as individual prompts or displayed in time order using Velcro or Blue Tac.

We have created a wide variety of cards but have also included eight blank templates at the end of the pack for you to create your own.

We hope these cards are helpful!
